Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claim 34 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The disclosure shows indicating information to the user but fails to disclose indicating an 'activation of the transmitter.'

Double Patenting

2. Claims 18-20,22-29,31-33 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1,4,5,6,11 and 12 of U.S. Patent No. 6108326. Claims 18-20,22-29,32 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1,5,6,7,10 of U.S. Patent No. 6175312. Although the conflicting claims are not identical, they are not patentably distinct from each other because the pending claims include the same subject matter of the allowed patents. The pending claims correspond to the US Patents as outlined in the following table.
